Global-Compliant Versatile Solution for Retail and Logistics

The EOS-241 M730 inlay combines superior read performance with a compact antenna size that is appropriate for item-level applications in retail and logistics. Optimized for use on diverse packaging materials, the inlay is ideal for inventory management in a wide range of non-food industries including retail apparel, supply chain, logistics, and pharmaceutical/healthcare.

It is based on Impinj's M730 RAIN RFID IC, which features 128-bit EPC memory, and provides high performance, fast inventory capability, and advanced features for next-generation, universal RAIN RFID tags. The IC is well suited for solutions that include high-speed inventory counting, loss prevention with frictionless self-checkout, and embedded tagging with seamless product returns.

The EOS-241 M730 inlay is available in dry, wet, and paper-face formats.

Tageos was one of the first companies to qualify for ARC Quality Certification for its manufacturing operations from Auburn University RFID Lab. EOS-241 M730 complies will ARC specifications F, G, N, O, Q, B1, W2, W5 and W6.

Like all Tageos' RFID products, EOS-241 M730 complies with ISO 9001:2015 Quality Management System and ISO 14001:2015 Environmental Management System as well as Environmental Directives RoHS and REACH, utilizing sustainable materials such as FSC® certified paper whenever possible.
